CERTIFICATIONS

Capitalize AI in Freelancing
Aptech Garden (Oct 2023)

Tailwind CSS
Aptech Garden (Mar 2024)

ACHIEVEMENTS

- Completed real-world client projects during academic studies.
- Delivered responsive websites with optimized performance.
- Balanced technical + creative skills (programming + graphic designing).

PROFILE

Aspiring Full Stack Developer and Teacher with practical experience in ASP.NET Core, SQL, PHP, Laravel, Angular, React, and WordPress. I work on both frontend and backend development and also have skills in graphic design, UI/UX, and sales communication. Currently, I am studying for a Higher Diploma in Software Engineering at Aptech Garden and also teaching programming. I have worked on real projects like ScoreFlood (UI and backend) and different e-commerce platforms. I enjoy creating applications that can grow with users and love being part of creative teams.

WORK EXPERIENCE

Faculty (Programming & Web Development) — Aptech Site   **July - Present**

- Teaching programming fundamentals, SQL, and ASP.NET Core to students.
- Guiding projects in web development and software engineering.
- Helping students build practical coding skills and problem-solving mindset.

Junior Web Developer — Mitsol Tech   **Apr 2024 – Aug 2024**

- Developed and maintained websites using WordPress, Angular, HTML, CSS, and JavaScript
- Contributed to UI and backend development of ScoreFlood https://www.scoreflood.com.
- Built responsive, user-friendly interfaces and optimized performance.
- Assisted in both frontend & backend integration for client projects.

Freelance Sales Agent   **2024 – 2025**

- Offered tailored sales solutions to diverse clients.
- Helped businesses grow communities and drive sales through strategic communication.
- Built long-term client relationships with customized solutions.

PROJECT EXPERIENCE

E-Commerce Web Application

- Built a dynamic e-commerce platform using PHP, Laravel, and frontend tools.
- Enhanced user experience, scalability, and branding for a home-based entrepreneur.

Digital Survey Portal: Inspiring Environmental Action

- Developed using ASP.NET Core and SQL for an educational initiative.
- Enabled student engagement, eco-conscious tracking, and reward system.
