

SUBHAN IMRAN

Full Stack Web Developer

North Karachi, Sector 11-I, Pakistan | 0324-3425751 | buisnesswithsubhan@gmail.com

[Portfolio](#) [LinkedIn](#)

PROFESSIONAL SUMMARY

Full-stack developer with hands-on experience across PHP, Angular, React, WordPress, and SQL, plus experience teaching programming fundamentals and mentoring students. Comfortable owning a project end to end — from client requirements to a deployed, responsive, production-ready site. Looking to take on freelance or full-time development work where I can build real products and keep sharpening both technical and client-facing skills.

TECHNICAL SKILLS

Languages: PHP, JavaScript, Python, C++, C, SQL

Frameworks / Tools: Angular, React, Vite, ASP.NET MVC / Core, Laravel, WordPress

Other: HTML5, CSS3, Database Design & Management, Git/GitHub, Problem-Solving, Client Communication

PROFESSIONAL EXPERIENCE

Faculty (Programming Instructor) — Aptech Site

Jul 2025 – Sep 2025

- Taught programming fundamentals, SQL, and PHP (Laravel) to students with a focus on practical, project-based coding.
- Guided students through web development and software engineering projects from concept to completion.
- Built students' problem-solving and logical-thinking skills through hands-on exercises and code reviews.

Junior Web Developer — Mitsol Tech

Apr 2024 – Aug 2024

- Developed and maintained client websites using WordPress, Angular, HTML, CSS, and JavaScript.
- Contributed to both front-end and back-end development for client projects, including ScoreFlood.
- Built responsive, user-friendly interfaces with a focus on performance and cross-device consistency.
- Coordinated front-end/back-end integration to deliver scalable client solutions.

Freelance Sales Agent — Self-employed

2024 – 2025

- Delivered tailored sales and communication strategies to help small businesses grow their customer base.
- Built long-term client relationships by understanding business needs and proposing results-driven solutions.

RELEVANT PROJECTS

Professional Services Portfolio Website — Angular subhan-01.github.io/syntheticinventions/

- Designed and built a responsive portfolio site using Angular and modern front-end practices.
- Showcased projects, skills, and personal branding through a clean, user-friendly interface.

Digital Survey Portal — ASP.NET Core, SQL github.com/Subhan-01/Environmental_Survey

- Built a web application for an educational environmental-action initiative using ASP.NET Core and SQL.
- Implemented eco-tracking and a reward-based system to boost student engagement.
